

## PROTECTING CLIENTS VALUABLE ASSETS

Our conservative investment style stresses preservation of capital, income, and growth to attain superior returns with low risk through both good and bad market cycles. Since 2000 a secular bear market (a lengthy period of stock market under-performance) has been in force. Compare our results to the total return of the S & P 500 during the same challenging time frame. Our firm looks forward to continue helping investors protect and grow their wealth in the future, no matter what the challenges.

- **Delivering Solid Returns Through Volatile Markets**
- **Providing Conservative Investment Management Since 1977**
